SUMMARY

Business Analytics, Information Systems, and Supply Chain Management student at the Kelley School of Business with hands-on experience designing SQL databases, building Python ETL pipelines, and creating interactive Tableau dashboards. Skilled at turning raw data into clear, decision-ready insight. Targeting data analyst and business analyst roles.

EDUCATION

Indiana University, Kelley School of Business Bloomington, IN	May 2027
Bachelor of Science in Business: Information Systems, Business Analytics, Supply Chain Management	GPA: 3.68/4.00
Minor: Japanese Language	Hutton Honors, Dean's Scholarship, Proozy EY Case Finalist, MSIS 3+1 Finalist

PROJECTS

Badminton Statistics Database | SQL Server, Python, Tableau

- Designed an 18-table SSMS database & Python ETL pipeline to ingest 7k rows of Kaggle data for advanced analytical queries
- Wrote advanced SQL queries using window functions, CTEs, and multi-table JOINS to analyze players, brands and equipment
- Built interactive Tableau stories with LOD calcs and parameter filters to surface performance insights across 27k+ records

Optimizing Batching: Inventory & CO2 Dashboard | Tableau, SAP ERP

- Built Tableau dashboards connected to live SAP ERP data via OData, tracking reorder points and CO2 emissions KPIs

Monte Carlo Inventory Risk Simulation | Excel, @RISK

- Ran a 2,000-iteration Monte Carlo simulation modeling demand uncertainty to produce profit distribution and risk reports

EXPERIENCE

Camp Khoodareh – Team Counselor, Flintstone, MD

 Summers 2025 - 2026

- Guided 6 campers with the creation of an engaging skit, utilizing collaboration and creativity while reinforcing camp values
- Mentored a team during service projects, promoting responsibility, teamwork, and positive contributions to local community
